Paying Debit Tips

When you pay with debit, remember to:

➤ **Swipe** your card in the machine.

➤ Choose **Debit**, not Credit.

➤ Enter your **pin number**. Don't say it out loud!

➤ Decide whether you want **cash back**.

➤ Check the **total cost** on the screen to make sure it's correct.

➤ Put your card **back in your wallet**, and take your **receipt**.

✴ Not all machines for **paying with debit cards** are exactly the same. If you're not sure what to do, just follow the **directions** on the screen!
